(Unaudited - Expressed in Canadian Dollars)

1. Nature of Operations and Going Concern

The Company was incorporated under the provisions of the Company Act (British Columbia). On May 26, 2015 the Company changed its name from Kola Mining Corp. to Mitchell Resources Ltd. The Company's common shares are listed on the TSX Venture Exchange ("TSXV") and trade under the symbol "MI". The Company's principal office is located at #1305 - 1090 West Georgia Street, Vancouver, British Columbia V6E 3V7.

The Company was previously engaged in the sourcing, exploration and development of unproven mineral interests in Russia. The Company was in default of the performance criteria called for by the Souker License and, effective March 6, 2015, the Company was advised by governmental authorities that the Souker License had been terminated and, during fiscal 2015, management recorded a write-off of the remaining $1.

As at November 30, 2015 the Company has a working capital deficiency of $72,244, non-current liabilities of $515,078, and shareholders' deficiency of $587,322. The Company's ability to continue as a going concern is dependent upon the continued financial support from its management and other shareholders, the Company's ability to acquire mineral property interests, to obtain the necessary financing to explore and develop properties and to establish future profitable production. The Company's operations are funded from equity financings which are dependent upon many external factors and may be difficult to impossible to secure or raise when required. As a result of this uncertainty, there is significant doubt as to the Company's ability to continue as a going concern. While the Company has been successful in securing financings in the past, there can be no assurance that it will be able to do so in the future.

These circumstances create a material uncertainty that leads to significant doubt to the ability of the Company to meet its obligations as they come due and, accordingly, the appropriateness of the use of accounting principles applicable to a going concern.

2. Basis of Preparation

Statement of Compliance

These condensed interim financial statements have been prepared using accounting policies consistent with International Financial Reporting Standards ("IFRS"), and in accordance with International Accounting Standards ("IAS") 34, Interim Financial Reporting, as issued by the International Accounting Standards Board ("IASB"). These condensed interim financial statements should be read in conjunction with the audited consolidated financial statements for the year ended May 31, 2015, which have been prepared in accordance with IFRS as issued by the IASB. The accounting policies followed in these condensed interim financial statements are consistent with those applied in the Company's audited consolidated financial statements for the year ended May 31, 2015.

Basis of Measurement

The condensed interim financial statements of the Company have been prepared on an accrual basis except for cash flow information, and are based on historical costs except for financial instruments classified as financial instruments at fair value through profit and loss, which are stated at fair value.

3. Loans

	November 30, 2015 $	May 31, 2015 $
Principal amounts	462,848	474,548
Accrued interest and financing fee	52,230	38,045
	515,078	512,593

(Unaudited - Expressed in Canadian Dollars)

3. Loans (continued)

The Company has received ongoing loans from DNG Capital Corp. ("DNG") a private company owned by the President of the Company. During the six months ended Noveme 30, 2015 the Company repaid $11,700.

Commencing November 1, 2014 the Company agreed to pay DNG a financing fee of $20,000 and to pay interest at a rate of 6% per annum on all outstanding principal amounts. During the six months ended November 30, 2015 the Company recognized $14,185 (2014 - $2,533) of interest expense.

DNG has agreed not to demand payment of the principal amounts and accrued interest and financing fee until after September 30, 2016 and the Company has classified these amounts as non-current liabilities as at November 30, 2015 and May 31, 2015.

4. Share Capital

(a) *Authorized Share Capital*

The Company's authorized share capital consists of an unlimited number of common shares without par value. All issued common shares are fully paid.

(b) *Equity Financings*

No equity financings were conducted by the Company during the six months ended November 30, 2015.

During fiscal 2015 the Company completed a non-brokered private placement of 9,000,000 units at $0.05 per unit, for gross proceeds of $450,000. Each unit comprised one common share and one-half of a share purchase warrant, with each whole warrant entitling the holder to purchase an additional common share, at $0.05 per share, on or before March 5, 2020. The Company paid $3,000 for filing fees incurred on this private placement classified as share issued costs.

Directors and/or officers of the Company and close family members, and private companies owned or jointly owned by a director of the Company purchased 4,755,000 units for $237,750 of the private placement.

(c) *Warrants*

A summary of the number of common shares reserved pursuant to the Company's outstanding warrants at November 30, 2015 and 2014 and the changes for the six months ended on those dates, is as follows:

	2015		2014	
	Number	Weighted Average Exercise Price $	Number	Weighted Average Exercise Price $
Balance, beginning of period	2,881,400	0.09	1,017,400	0.10
Exercised	314,000	0.05	-	-
Balance, end of period	2,567,400	0.10	1,017,400	0.10

(Unaudited - Expressed in Canadian Dollars)

4. Share Capital (continued)

The following table summarizes information about the number of common shares reserved pursuant to the Company's warrants outstanding and exercisable at November 30, 2015:

Number	Exercise Price $	Expiry Date
554,500	0.20	August 2, 2018
225,000	0.20	August 12, 2018
237,900	0.10	November 12, 2018
1,550,000	0.05	March 5, 2020
2,567,400		

The weighted average remaining life of the warrants outstanding is 3.66 years.

(d) *Share Option Plan*

The Company has established a rolling share option plan (the "Plan") in which the maximum number of common shares which can be reserved for issuance under the Plan is 10% of the issued and outstanding shares of the Company. The minimum exercise price of the options is set at the Company's closing share price on the day before the grant date, less allowable discounts. Options granted may be subject to vesting provisions as determined by the Board of Directors and have a maximum term of ten years.

No share options were granted during the six months ended November 30, 2015 and 2014.

As at November 30, 2015 and 2014 no share options were outstanding.

See also Note 9.

5. Related Party Disclosures

A number of key management personnel, or their related parties, hold positions in other entities that result in them having control or significant influence over the financial or operating policies of those entities. Certain of these entities transacted with the Company during the reporting period.

(a) *Transactions with Key Management Personnel*

During the six months ended November 30, 2015 and 2014 the following amounts were incurred with respect to the President and Chief Executive Officer ("President/CEO") and the Chief Financial Officer ("CFO") of the Company:

	2015 $	2014 $
Professional fees	16,200	16,200

As at November 30, 2015, $81,000 (2014 - $48,600) remained unpaid and has been included in accounts payable and accrued liabilities.

(Unaudited - Expressed in Canadian Dollars)

5. Related Party Disclosures (continued)

(b) *Transactions with Other Related Parties*

(i) During the six months ended November 30, 2015 and 2014 the following amounts were incurred with respect to non-management directors of the Company:

	2015 $	2014 $
Professional fees	11,100	11,100

As at November 30, 2015, $45,500 (2014 - $33,300) remained unpaid and has been included in accounts payable and accrued liabilities.

(ii) During the six months ended November 30, 2015 the Company incurred a total of $9,900 (2014 - $9,600) for accounting and administration services provided by Chase Management Ltd., a private corporation owned by the current President/CEO of the Company. As at November 30, 2015, $3,700 (2014 - $3,000) remained unpaid and has been included in accounts payable and accrued liabilities.

(c) See also Notes 3 and 4(b).

6. Financial Instruments and Risk Management

Categories of Financial Assets and Financial Liabilities

Financial instruments are classified into one of the following categories: fair value through profit or loss ("FVTPL"); held-to-maturity investments; loans and receivables; available-for-sale; and other financial liabilities. The carrying values of the Company's financial instruments are classified into the following categories:

Financial Instrument	Category	November 30, 2015 $	May 31, 2015 $
Cash	FVTPL	57,127	75,410
GST receivable	Loans and receivables	555	428
Accounts payable and accrued liabilities	Other financial liabilities	(131,226)	(103,524)
Loans	Other financial liabilities	(515,078)	(512,593)

The Company's financial instruments recorded at fair value require disclosure about how the fair value was determined based on significant levels of inputs described in the following hierarchy:

Level 1 - Quoted prices are available in active markets for identical assets or liabilities as of the reporting date. Active markets are those in which transactions occur in sufficient frequency and value to provide pricing information on an ongoing basis.

Level 2 - Pricing inputs are other than quoted prices in active markets included in Level 1. Prices in Level 2 are either directly or indirectly observable as of the reporting date. Level 2 valuations are based on inputs including quoted forward prices for commodities, time value and volatility factors, which can be substantially observed or corroborated in the market place.

Level 3 - Valuations in this level are those with inputs for the asset or liability that are not based on observable market data.

6. Financial Instruments and Risk Management (continued)

The recorded amounts for GST receivable, accounts payable and accrued liabilities and loans approximate their fair value. The Company's cash under the fair value hierarchy is measured using Level 1 inputs.

The Company's risk exposures and the impact on the Company's financial instruments are summarized below:

Credit Risk

Credit risk is the risk of loss associated with a counterparty's inability to fulfill its payment obligations. The Company's credit risk is primarily attributable to cash and GST receivable. Management believes that the credit risk concentration with respect to cash and GST receivable is remote as cash is held with a high quality financial institution and GST receivable represents amounts due from the Government of Canada.

Liquidity Risk

Liquidity risk is the risk that the Company will not have the resources to meet its obligations as they fall due. The Company manages this risk by closely monitoring cash forecasts and managing resources to ensure that it will have sufficient liquidity to meet its obligations. The Company has financial liabilities classified as current that are due within the next fiscal period. The Company will need to obtain additional financing to meet the obligations as they come due. See Note 1.

Market Risk

Market risk is the risk of loss that may arise from changes in market factors such as interest rates, foreign exchange rates, and commodity and equity prices. These fluctuations may be significant.

(a) Interest Rate Risk

The Company is exposed to interest rate risk to the extent that the cash bears floating rates of interest. The interest rate risk on cash is not considered significant. The Company has interest bearing debt at fixed rates and is therefore not subject to fluctuating interest rate risk on its non-current loans.

(b) Foreign Currency Risk

The Company's functional currency is the Canadian dollar and major transactions are transacted in Canadian Dollars and US Dollars. The Company maintains minimal cash deposits in US Dollars with its Canadian bank. As such, the fluctuation of the Canadian Dollar in relation to the US Dollar will have an impact upon the profitability of the Company and may also affect the value of the Company's assets and the amount of shareholders' deficiency. However, as the Company does not maintain significant cash balances in US Dollars and settles any transactions in US Dollars quickly, its exposure to currency risk is considered insignificant as at November 30, 2015.

7. Capital Risk Management

The Company manages its capital structure and makes adjustments to it, based on the funds available to the Company, in order to support the acquisition and exploration of mineral properties. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain development of the business. The Company defines capital that it manages as components of shareholders' deficiency. The Company will continue to assess new properties and seek to acquire an interest in additional properties if it feels there is sufficient geologic or economic potential and if it has adequate financial resources to do so. Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable.

7. Capital Risk Management (continued)

The Company does not expect its current capital resources will be sufficient to meet all of its operating requirements and debt retirement obligations and is dependent upon future equity or debt transactions to meet these obligations. See also Note 1.

8. Segmented Information

The Company has operated in one segment - the acquisition, exploration and development of unproven mineral property interests. As at November 30, 2015 the Company does not have any mineral property interest. Its corporate assets, comprising mainly of cash, are located in Canada. The Company is in the exploration stage and has no reportable segment revenues or operating results.

9. Event after the Reporting Period

On December 3, 2015 the Company granted share options to purchase 1,285,000 common shares of the Company at an exercise price of $0.05 per share expiring December 3, 2018.
